THE INSTITUTE OF ECONOMICS OF THE HUNGARIAN ACADEMY OF SCIENCES  
cordially invites You  
to the public presentation of the Institute's new release

## **The Hungarian Labour Market 2005 – Review and Analysis**

The goal of our labour market yearbooks is to review annually the main developments on the Hungarian labour market and to give an in-depth analysis of the key issues. Setting out the major trends, this year's volume put in focus the connection between education and the labour market. A study is included on the causes and consequences of the legal and institutional changes that took place in employment policy last year. The volume also presents a comprehensive set of statistical data indicating the main economic developments.

The event will be opened by

*Lajos Héthy,*

Permanent Secretary of State, Ministry of Employment and Labour  
providing an assessment of the book in the context of public policy issues

The yearbook will be introduced by

*Jenő Koltay*

Deputy Director of IE-HAS,  
giving a general overview of the present volume, and

*Júlia Varga, author, editor*

*Gábor Kézdi, author,*

presenting special themes from the book

---
