

INDEX OF TABLES AND FIGURES

TABLES

LABOUR MARKET

Table 1: Employment rates among 15–64 year-olds broken down education 22

Table 2: Major financial indicators of government programmes aimed at job preservation and potentially increasing labour demand 29

IN FOCUS

Table 1.1: The number of employed persons and employees in 2006–2009 (thousands) 43

Table 1.2: Unemployment rates using alternative definitions of joblessness 44

Table 1.3: Changes of employment, wages and working hours, 2009 .. 45

Table 1.4: Changes of employment, working hours and hourly wages – multivariate regressions 50

Table 1.5: Estimates of the effect of collective agreements on the changes of employment 2008–2009 53

Table 1.6: The effects of industry-level change of output and local unemployment on the probability of being covered by collective agreement in 2009 53

Table 1.7: Changes in different measures of part-time employment 2008–2009 (percentage points) ... 57

Table 1.8: Registration and transfers received by workers non-employed for 0–3 months at the time of the LFS interview (LFS, per cent) 61

Table 1.9: Selected indicators of the unassisted non-employed 61

Table 1.10: Flows to ALMP and staffing of the PES 2006–2009 62

Table 1.11: Job retention programs in 2009 62

Table A1.1: Changes in the firm panel versus the whole private sector 65

Table A1.2: Changes of employment, hours and wages with outliers and non-outliers 65

Table A1.3: Firm panel, descriptive statistics of the estimation sample .. 66

Table A1.4: Removing composition effects: wage regression (firm panel, unweighted sample) 66

Table A2.1: Estimation of exit to non-employment (LFS panel) Dis-

crete time duration model – Logit odds ratios 67

Table A2.2: Estimation of exit to employment. Discrete time duration model – Logit odds ratios 68

Table 1.A)1: Labour policy crisis measures in the EU member states in 2009 70

Table 1.B)1: Adaptive measures employed by enterprises in response to the economic crisis 72

Table 2.1: Major layoffs in the automotive industry between October 2008 and August 2009 86

Table 3.1: Job seeker registrations by period of time since last previous registration (thousand people) ... 101

Table 3.2: Number of companies announcing layoffs and number of affected workers 103

Table 3.3: The most frequent occupations in the layoff announcements, with four-digit FEOR codes 107

Table 3.4: People laid off between October 2008 and December 2009 and registering as job seekers between October 2008 and June 2010, receiving operative services or benefits, or participating in Active Employment programmes ... 110

Table 3.5: Re-employment among workers separated from their jobs between October 2008 and December 2009 and registering as job seekers up to June 2010 110

Table A3.1: Announced job separations and registered job-seekers .. 116

Table 4.1: Differences of unemployment according to regions and categories of settlements before the appearance of the crisis, September 2008 128

Table 4.A)1: The 33 most disadvantaged micro-regions by increasing order of complex indicator of development intervals 135

Table 4.A)2: Employment rates in the three groups of micro-regions by quarter 135

Table 4.A)3: Unemployment rates in the three groups of micro-regions by quarter 135

Table 4.B)1: Average hourly wages as a function of distance to centers: Weighted Least Squares estimates .. 139

Table 5.1: Changes in employment and unemployment, 2007–2010 ... 141

Table 5.2: The 23 different types of payment combinations 144

Table 5.3: Possible effects of the crisis on the choice between declared (reported) and undeclared (unreported) forms of payment 155

Table 6.1: The effect of individual characteristics on the probability of job loss, employees of age 15–64, results from a probit estimation .. 162

Table 7.1: Major inequality indicators of the distribution of household income per capita in Hungary, 1987–2009 172

Table 7.2: The distribution of equivalised incomes between 1987 and 2009 as measured by indicators sensitive to the different segments of the income distribution 174

Table 7.3: Households' self-assessment of their financial situation ... 178

Table 7.4: Bank loan repayment instalments and household income among households with bank loans, January 2010 182

Table 7.5: Percentage of households who could always afford to meet their repayment obligations and of those who could not always afford to meet their repayment obligations in 2009 183

Table A7.1: Percentage of households that could not afford to pay their loan repayment instalments on one or more occasions during the previous year 186

Table 7.A)1: Household net repayment capacity, percent of GDP .. 189

Table 7.A)2: Loan repayment arrears, 2008–2010 189

LEGAL

Table A1: Eligibility criteria for job-seeker's benefit 232

Table A2: Assistance for jobseekers, Income Replacement Allowance, Stand-by Allowance Statutory minimum wage in 2010: 73,500 forints/month 232

Table A3: Main features of the Job-seeker's Allowance 232

Table A4: Eligibility conditions for social assistance of working age adults 232

Table A5: The target groups of Start Cards	233	Table 4.12: Employees of the competitive sector by the share of foreign ownership, per cent	262	Table 5.17: Outflow from the Register of Beneficiaries	280
Table A6: Contribution reliefs attached to Start Cards	233	Table 4.13: Employment rate of population aged 15–74 by age group, males, per cent	263	Table 5.18: The distribution of the total number of labour market training participant	280
Table A7: Employment and training subsidies regulated by the Employment Act and other regulations ..	234	Table 4.14: Employment rate of population aged 15–74 by age group, females, per cent	263	Table 5.19: Employment ratio of participants ALMPs by gender, age groups and educational attainment for the programmes finished in 2009, per cent	281
STATISTICAL DATA					
Table 1.1: Basic economic indicators ..	243	Table 4.15: Employment rate of population aged 15–64 by level of education, males, per cent	264	Table 5.20: The distribution of the yearly number of labour market training participants, according to the type of training, per cent	281
Table 2.1: Population	245	Table 4.16: Employment rate of population aged 15–64 by level of education, females, per cent	265	Table 5.21: The distribution of those entering into the training programmes by age groups and educational level	282
Table 2.2: Population by age groups, in thousands	245	Table 5.1: Unemployment rate by gender and per cent of long term unemployed, per cent	266	Table 6.1: Nominal and real earnings ...	283
Table 2.3: Male population by age groups, in thousands	247	Table 5.2: Unemployment rate by level of education, males, per cent ..	267	Table 6.2.a: Gross earnings ratios in the economy, HUF/person	284
Table 2.4: Female population by age groups, in thousands	247	Table 5.3: Composition of the unemployed by level of education, males, per cent	267	Table 6.2.b: Gross earnings ratios in the economy, per cent	285
Table 3.1: Labour force participation of the population above 14 years, in thousands	248	Table 5.4: Unemployment rate by level of education, females	268	Table 6.3: Regression-adjusted earnings differentials	285
Table 3.2: Labour force participation of the population above 14 years, males, in thousands	249	Table 5.5: Composition of the unemployed by level of education, females, per cent	268	Table 6.4: Percentage of low paid workers by gender, age groups, level of education and industries	286
Table 3.3: Labour force participation of the population above 14 years, females, in thousands	250	Table 5.6: The number of unemployed by duration of job search	270	Table 7.1: School-leavers by level of education	289
Table 3.4: Labour force participation of the population above 14 years, per cent	251	Table 5.7: Registered unemployed and LFS unemployment	272	Table 7.2: Pupils/students entering the school system by level of education	290
Table 3.5: Labour force participation of the population above 14 years, males, per cent	252	Table 5.8: Composition of the registered unemployed by educational attainment, yearly averages,	273	Table 7.3: The number of full time pupils/students by level of education	291
Table 3.6: Labour force participation of the population above 14 years, females, per cent	253	Table 5.9: The distribution of registered unemployed school-leavers by educational attainment	273	Table 7.4: The number of pupils/students not in full time by level of education	291
Table 3.7: Population aged 15–64 by labour market status	254	Table 5.10: Registered unemployed by economic activity as observed in the LFS, per cent	274	Table 7.5: Number of high school applicants, full time	292
Table 3.8: Population aged 15–64 by labour market status, per cent ...	255	Table 5.11: Selected time series of registered unemployment	275	Table 8.1: The number of vacancies reported to the local offices of the NFSZ	293
Table 4.1: Employment	256	Table 5.12: Monthly entrants to the unemployment register, monthly averages, in thousands	276	Table 8.2: Firms intending to increase/decrease their staff	294
Table 4.2: Employment by gender ..	257	Table 5.13: Benefit recipients and participation in active labour market programs	277	Table 9.1: Regional inequalities: Employment rate	295
Table 4.3: Composition of the employed by age groups, males	258	Table 5.14: The number of registered unemployed who became employed on subsidised and non-subsidised employment	278	Table 9.2: Regional inequalities: LFS-based unemployment rate ..	296
Table 4.4: Composition of the employed by age groups, females	258	Table 5.15: Distribution of registered unemployed, unemployment benefit recipients and unemployment assistance recipients by educational attainment	278	Table 9.3: Regional differences: The ratio of unemployed in the active population, per cent	297
Table 4.5: Composition of the employed by level of education	259	Table 5.16: The ratio of those who are employed among the former participants of ALMPs	279	Table 9.4: Annual average registered unemployment rate by counties ..	298
Table 4.6: Composition of the employed by level of education, females	259			Table 9.5: Regional inequalities: Gross monthly earnings	299
Table 4.7: Employed by employment status, in thousands	260			Table 9.6: Regression-adjusted earnings differentials	299
Table 4.8: Composition of the employed persons by employment status	260			Table 9.7: Regional inequalities: Gross domestic product	300
Table 4.9: Composition of employed persons by sector, by gender	261				
Table 4.10: Employed in their present job since 0–6 months	261
