

## INDEX OF TABLES AND FIGURES

### TABLES

#### IN FOCUS I

Table 1.1: Distribution of income from personal income tax records, 2000–2010 (annual income, in thousand forints) .....	60
Table 2.1: Results of BBB (2008) for the whole sample with income above the minimum wage .....	84
Table 2.2: Results of BBB (2008) for a higher income sample .....	85
Table 2.3: Results of KM (2011) for individuals with initial income of HUF 5–8 million .....	85
Table 2.4: Estimated elasticities for various income groups, I .....	86
Table 2.5: Estimated elasticities for various income groups, II .....	87
Table 2.6: Estimated elasticities for taxpayers with and without cost deductions .....	87
Table 2.7: Estimated elasticities for genders separately .....	88
Table 2.8: Estimated elasticities for individuals earning wage income only .....	89
Table 2.9: The value of the optimal top marginal tax rate as a function of parameters $g$ and $e$ , with $a = 2.5$ (percent) .....	93
Table 3.1: Share of various welfare recipients in the 15–64 year old population, 1990–2010 .....	105
Table 3.2: Conditional marginal effects for various subgroups of the working age population .....	108
Table 4.1: Tax credit and its alternatives .....	125
Table 4.2: Revenue-neutral policy packages .....	127
Table 4.3: The impact of measures introduced between 2010 and 2013 .....	128
Table 4.4: The total 2010–2013 package and hypothetical risk-premium shocks .....	130
Table 5.2.1: Wage subsidies – net programme effects .....	138
Table 5.3.1: Rules of the various Start schemes at the time of introduction .....	143
Table 5.3.2: Employment effects for job seekers aged around 50 .....	146
Table 5.3.3: Wage effects job seekers aged around 50 .....	147

Table 6.1: “Fictitious” minimum wage earners in the quintiles of the estimated true wage, 2006 .....	171
Table 6.2: Underreporting of income by taxpayers’ income deciles, 2005 .....	176
Table 6.3: Underreporting of income by main source of income, region, gender and age group, 2005 .....	177

#### IN FOCUS 2

Table 1.1: Yearly number of collective and wage agreements, coverage of firms and employees in the database used for the analysis (after the cleaning and the sample selection procedures) .....	203
Table 1.2: Average union wage gap estimates using individual wage equations, 1992–2008 .....	206
Table 1.3: Union wage gap estimates by period using individual wage equations .....	209
Table 2.1: Firm characteristics of the sample .....	218
Table 2.2: Individual characteristics by ownership type – LEED .....	218
Table 2.3: The effect of foreign acquisition on wages .....	221
Table 2.4: The effect of foreign ownership by type of investment .....	222
Table 2.5: Effects of foreign acquisition on the wage structure by gender, education and experience groups .....	223
Table 2.6: Effects of foreign acquisition on the wage structure by occupation .....	223
Table 2.7: The effect of acquisitions on labor productivity and average wages .....	225
Table 2.8: FDI impact estimates by source of country gdp, acquisition period, and target type .....	226
Table 3.1: Number of observations in regressions by ownership type .....	231
Table 3.2: Private ownership shares .....	233
Table 3.3: Estimated effects of privatization on firm employment ..	235
Table 3.4: Estimated effects of privatization on employment (weighted by firm employment) .....	236
Table 3.5: Worker characteristics by ownership .....	239

Table 3.6: Estimated effect of privatization on wages .....	241
Table 3.7: The effects of privatization on the wage structure: gender, education, experience .....	241
Table 3.8: The wage effects of privatization by worker occupation .....	242
Table 4.1: Some average characteristics of firms participating in international trade compared to internationally inactive firms .....	251
Table 4.2: Average wages paid by exporter and importer firms .....	252
Table 4.3: The productivity effects of import – estimates of the average firm’s production function .....	257
Table 4.4: The Hungarian machine import according to country of origin .....	258
Table 4.5: The effect of imports and offshoring on the wages in the food industry .....	260
Table 4.6: The effect of machine import on the wages of the machine operators .....	265
Table 4.7: The effect of import and export on the wages in various occupational groups (cross-section results) .....	268
<b>INSTITUTIONAL ENVIRONMENT</b>	
Table 1: Main characteristics of job seekers’ and working age benefits, as at 30 August, 2012 .....	283
Table 2: Contributions paid by employers and employees, social taxation .....	287
Table A1: NFA (previously MpA) spending in the budget, harmonised data .....	314
Table A2: Labour market programmes outside the NFA (MpA) financed by the EU; maximum amount of commitment according to indicative resource allocation (billion forints) .....	316
<b>STATISTICAL DATA</b>	
Table 1.1: Basic economic indicators .....	323
Table 2.1: Population .....	325
Table 2.2: Population by age groups, in thousands .....	325
Table 2.3: Male population by age groups, in thousands .....	327
Table 2.4: Female population by age groups, in thousands .....	327

Table 3.1: Labour force participation of the population above 14 years, in thousands ..... 328	Table 4.15: Employment rate of population aged 15–64 by level of education, males, per cent ..... 344	Table 5.18: The distribution of the total number of labour market training participants ..... 360
Table 3.2: Labour force participation of the population above 14 years, males, in thousands ..... 329	Table 4.16: Employment rate of population aged 15–64 by level of education, females, per cent ..... 344	Table 5.19: Employment ratio of participants ALMPs by gender, age groups and educational attainment for the programmes finished in 2011, per cent ..... 361
Table 3.3: Labour force participation of the population above 14 years, females, in thousands ..... 330	Table 5.1: Unemployment rate by gender and share of long term unemployed, per cent ..... 346	Table 5.20: Distribution of the average annual number of those with no employment status who participate in the training by the type of training, percentage ..... 361
Table 3.4: Labour force participation of the population above 14 years, per cent ..... 331	Table 5.2: Unemployment rate by level of education, males, per cent ..... 347	Table 5.21: The distribution of those entering into the training programmes by age groups and educational level ..... 362
Table 3.5: Labour force participation of the population above 14 years, males, per cent ..... 332	Table 5.3: Composition of the unemployed by level of education, males, per cent ..... 347	Table 6.1: Nominal and real earnings Table 7.4: The number of pupils/students not in full time by level of education ..... 363
Table 3.6: Labour force participation of the population above 14 years, females, per cent ..... 333	Table 5.4: Unemployment rate by level of education, females, per cent ..... 348	Table 6.2.a: Gross earnings ratios in the economy, HUF/person/month ..... 364
Table 3.7: Population aged 15–64 by labour market status (self-categorised), in thousands ..... 334	Table 5.5: Composition of the unemployed by level of education, females, per cent ..... 348	Table 6.2.b: Gross earnings ratios in the economy, per cent ..... 365
Table 3.8: Population aged 15–64 by labour market status (self-categorised), per cent ..... 335	Table 5.6: The number of unemployed by duration of job search, in thousands ..... 350	Table 6.3: Regression-adjusted earnings differentials ..... 366
Table 4.1: Employment ..... 336	Table 5.7: Registered unemployed and LFS unemployment ..... 352	Table 6.4: Percentage of low paid workers by gender, age groups, level of education and industries ..... 367
Table 4.2: Employment by gender ..... 337	Table 5.8: Composition of the registered unemployed by educational attainment, yearly averages, per cent ..... 353	Table 7.1: School-leavers by level of education ..... 370
Table 4.3: Composition of the employed by age groups, males, per cent ..... 338	Table 5.9: The distribution of registered unemployed school-leavers by educational attainment, yearly averages, per cent ..... 353	Table 7.2: Pupils/students entering the school system by level of education ..... 371
Table 4.4: Composition of the employed by age groups, females, per cent ..... 338	Table 5.10: Registered unemployed by economic activity as observed in the LFS, per cent ..... 354	Table 7.3: The number of full time pupils/students by level of education ..... 372
Table 4.5: Composition of the employed by level of education, males, per cent ..... 339	Table 5.11: Selected time series of registered unemployment, monthly averages, in thousands and per cent ..... 354	Table 7.4: The number of pupils/students not in full time by level of education ..... 372
Table 4.6: Composition of the employed by level of education, females, per cent ..... 339	Table 5.12: Monthly entrants to the unemployment register, monthly averages, in thousands ..... 356	Table 7.5: Number of high school applicants, full time ..... 373
Table 4.7: Employed by employment status, in thousands ..... 340	Table 5.13: Benefit recipients and participation in active labour market programs ..... 357	Table 8.1: The number of vacancies reported to the local offices of the NFSZ ..... 374
Table 4.8: Composition of the employed persons by employment status, per cent ..... 340	Table 5.14: The number of registered unemployed who became employed on subsidised and non-subsidised employment ..... 358	Table 8.2: Firms intending to increase/decrease their staff ..... 375
Table 4.9: Composition of employed persons by sector, by gender, per cent ..... 341	Table 5.15: The ratio of those who are employed among the former participants of ALMPs ..... 358	Table 9.1: Regional inequalities: Employment rate ..... 376
Table 4.10: Employed in their present job since 0–6 months ..... 341	Table 5.16: Distribution of registered unemployed, unemployment benefit recipients and unemployment assistance recipients by educational attainment ..... 359	Table 9.2: Regional inequalities: LFS-based unemployment rate .. 377
Table 4.11: Distribution of employees in the competitive sector by firm size, per cent ..... 342	Table 5.17: Outflow from the Register of Beneficiaries ..... 360	Table 9.3: Regional differences: The share of registered unemployed relative to the economically active population, per cent ..... 377
Table 4.12: Employees of the competitive sector by the share of foreign ownership, per cent ..... 342		Table 9.4: Annual average registered unemployment rate by counties, per cent ..... 379
Table 4.13: Employment rate of population aged 15–74 by age group, males, per cent ..... 343		
Table 4.14: Employment rate of population aged 15–74 by age group, females, per cent ..... 343		

Table 9.5: Regional inequalities: Gross monthly earnings .....	380	Table 12.2: Changes in the magni- tude of the tax wedge in the case of minimum wage and the temporary work booklet (AMK) .....	391	Figure 19: The ratio of part time workers and temporary staff in full time employment .....	30
Table 9.6: Regression-adjusted earn- ings differentials .....	380	Table 12.3: The monthly amount of the minimum wage, the guaran- teed wage minimum, and the mini- mum pension, in thousands of cur- rent-year HUF .....	392	Figure 20: The number of registered and ILO-unemployed .....	31
Table 9.7: Regional inequalities: Gross domestic product .....	381	Table 12.4: The tax burden on work as a ratio of tax revenue and earn- ings .....	393	Figure 21: Unemployment rate in the Hungarian regions .....	31
Table 9.8: Commuting .....	381	Table 13.1: Employment and unem- ployment rate of population aged 15–64 by gender in the EU, 2011 .....	394	Figure 22: Average duration of un- employment and the long-term un- employment rate .....	32
Table 10.1: Strikes .....	382	Table 13.2: Employment compo- sition of the countries in the EU, 2011 .....	395	Figure 23: The number of registered unemployed (persons, monthly data) .....	33
Table 10.2: National agreements on wage increase recommenda- tions .....	382	<b>FIGURES</b>		Figure 24: The distribution of reg- istered unemployed by the type of entitlement (per cent, monthly data) .....	34
Table 10.3: Single employer collec- tive agreements in the business sec- tor .....	383	<b>HUNGARIAN LABOUR MARKET</b>		Figure 25: Gross real wages (2006 Q1 = 100) .....	34
Table 10.4: Single institution collec- tive agreements in the public sector .....	383	Figure 1: GDP-growth in the region, annual change (%) .....	17	Figure 26: Gross wages in the public sector with and without fostered workers (year-on-year change, per- cent) .....	35
Table 10.5: Multi-employer collec- tive agreements in the business sector .....	383	Figure 2: Employment rates in the Central and Eastern European re- gion (15 to 64 age group) .....	19	Figure 27: Gross average wages in the private sector (year-on-year change, percent) .....	36
Table 10.6: Multi-institution collec- tive agreements in the public sector .....	383	Figure 3: Participation rates in the Central and Eastern European re- gion (15 to 64 age group) .....	19	Figure 28: The ratio of wages in manufacturing to wages in market services .....	36
Table 10.7: The number of firm wage agreements, the number of affect- ed firms, and the number of em- ployees covered .....	383	Figure 4: Unemployment rate in the Central and Eastern European re- gion (15 to 64 age group) .....	20	Figure 29: The level and change of wages in the private sector .....	37
Table 10.8: The number of multi- employer wage agreements, the number of affected firms, and the number of covered companies and employees .....	384	Figure 5: Inflow rates into inactivity .....	21	<b>IN FOCUS I</b>	
Table 11.1: Family benefits .....	385	Figure 6: Outflow rate from inactiv- ity .....	21	Figure 1.1: Labour supply incentives of average and marginal tax rates .....	50
Table 11.2: Unemployment benefits and average earnings .....	385	Figure 7: Decomposition of the change in the participation rate ..	22	Figure 1.2: Equilibrium of labour de- mand and supply with a unit tax on labour .....	53
Table 11.3: Number of those receiv- ing self-entitled pension, and the mean sum of the provisions they received .....	386	Figure 8: Decomposition of the com- position effect .....	23	Figure 2.1: The actual top marginal tax rate in Hungary, 2005–2013 ..	94
Table 11.4: Number of those receiv- ing social annuities for people with damaged health, and the mean sum of the provisions they received after the increase .....	386	Figure 9: Decomposition of the transfer-effect .....	23	Figure 3.1: Labour supply decision at the extensive margin .....	102
Table 11.5: The number of those re- ceiving a disability annuity and the mean sum of the provisions they received after the increase, in Janu- ary of the given year .....	387	Figure 10: Participation rates in the Hungarian regions (15 to 64 age group, percent) .....	24	Figure 3.2: The contribution of cer- tain social groups to Hungary's participation rate deficit relative to the EU average (percentage points, in 2011) .....	105
Table 11.6: The median age for re- tirement and the number of pen- sioners .....	387	Figure 11: Employment in the public sector (thousand persons) .....	24	Figure 5.1.1: Equilibrium of labour demand and supply with a unit tax on labour .....	135
Table 11.7: Newly determined dis- ability pension claims and detailed data on the number of newly deter- mined old-age pension claims ..	388	Figure 12: Outflow rate from com- munity working .....	25	Figure 5.4.1: Minimum wage rates in proportion to sub-region average wage rates, 2008 .....	153
Table 11.8: Retirement age thresh- hold .....	389	Figure 13: Inflow rate into commu- nity working .....	26	Figure 6.1: Estimates of undeclared employment in the LFS, 2001– 2007 (percentage) .....	165
Table 12.1: The mean, minimum, and maximum value of the person- al income tax key, per cent .....	390	Figure 14: Value added in different branches of the economy (2006 Q1 = 100) .....	26	Figure 6.2: The number and percent- age of undeclared workers in the total workforce by age group and gender in the LFS and ONYF sam- ples, 2004 .....	166
		Figure 15: Employment in the pri- vate sector (2006 Q1 = 100) .....	27		
		Figure 16: Employment rates in the Hungarian regions (percent) .....	28		
		Figure 17: Developments in mass lay-offs and vacancies .....	28		
		Figure 18: The Beveridge-curve .....	29		

**IN FOCUS 2**

Figure 2.1: Distribution of foreign ownership share in 2000 ..... 216

Figure 2.2: Evolution of foreign acquisitions ..... 216

Figure 2.3: Distribution of foreign ownership before and after foreign acquisitions and divestments ..... 217

Figure 3.1: Evolution of ownership ..... 239

Figure 4.1: The import and export as a percentage of the GDP over time ..... 246

Figure 4.2: The development of income inequalities. The ratio of the 90th and 50th percentiles of the wage distribution (1994-2004) .. 247

Figure 4.3: Average wages (HUF) at firms that participate in international trade and in the group of internationally inactive firms ..... 251

Figure 4.4: The wage difference through time before and after the start of the export/import activity ..... 253

Figure 4.5: The wage differences before and after the start of the trade activity – after controlling for individual and firm characteristics .. 254

Figure 4.6: The marginal product of skills on imported and domestic machines ..... 265

Figure 4.7: The wage effect of export and capital import for each occupational group and year ..... 269

**STATISTICAL DATA**

Figure 1.1: Annual changes of basic economic indicators ..... 323

Figure 1.2: Annual GDP time series (2000 = 100%) ..... 324

Figure 1.3: Employment rate of population aged 15-64 ..... 324

Figure 2.1: Age structure of the Hungarian population, 1980, 2012 ..... 326

Figure 3.1: Labour force participation of population at male 15-59 and female 15-54, total ..... 331

Figure 3.2: Labour force participation of population at male 15-59 ..... 332

Figure 3.3: Labour force participation of population at female 15-54 ..... 333

Figure 4.1: Employed ..... 336

Figure 4.2: Employment by gender ..... 337

Figure 4.3: Employees of the corporate sector by firm size and by the share of foreign ownership ..... 342

Figure 4.4: Activity rate by age groups, males aged 15-64, quarterly ..... 345

Figure 4.5: Activity rate by age groups, females aged 15-64, quarterly ..... 345

Figure 5.1: Unemployment rates by gender ..... 346

Figure 5.2: Intensity of quarterly flows between labour market status, population between 15-64 years ..... 349

Figure 5.3: Unemployment rate by age groups, males aged 15-59, quarterly ..... 351

Figure 5.4: Unemployment rate by age groups, females aged 15-59, quarterly ..... 351

Figure 5.5: Registered and LFS unemployment rates ..... 352

Figure 5.6: Entrants to the unemployment register, monthly averages, in thousands ..... 356

Figure 6.1: Annual changes of gross and net real earnings ..... 363

Figure 6.2: The percentage of low paid workers by gender ..... 366

Figure 6.3: The dispersion of gross monthly earnings ..... 367

Figure 6.4: Age-income profiles by education level in 1998 and 2011, women and men ..... 368

Figure 6.5: The dispersion of the logarithm of gross real earnings ..... 369

Figure 7.1: Full time students as a percentage of the different age groups ..... 370

Figure 7.2: Flows of the educational system by level ..... 371

Figure 8.1: The number of vacancies reported to the local offices of the NFSZ ..... 374

Figure 8.2: Firms intending to increase/decrease their staff ..... 375

Figure 9.1: Regional inequalities: Labour force participation rates, gross monthly earnings and gross domestic product in NUTS-2 level regions ..... 376

Figure 9.2: Regional inequalities: LFS-based unemployment rates in NUTS-2 level regions ..... 378

Figure 9.3: Regional inequalities: The share of registered unemployed relative to the economically active population, per cent, in NUTS-2 level regions ..... 378

Figure 9.4: Regional inequalities: Means of registered unemployment rates in the counties, 2011 ..... 379
